## WELCOME TO shaolinDIGITAL

Shaolin Digital evolved from Shaolin Communications as the web design, digital photography editing, and website maintenance.

shaolinDIGITAL.com has created over 200 websites since 1999 and over 4,000 website pages.

shaolinDIGITAL.com pioneered the use of internet websites to augment the information in our books. These "interactive books" can be updated without republishing the book by updating the linked webpages. This allows content to be current and events to be updated.

shaolinDIGITAL.com has also established relationships with credit card processors and secure download servers to provide internet download sales of books, videos, and record albums.

shaolinDIGITAL.com uploads our products to other internet stores where our products are also sold, including iTunes and amazon.com

### FEATURED PRODUCTS
